Project Vision –Request for Proposal (“RFP”)

Dear Mr. Pörschmann,

EKB – EnBW Kommunale Beteiligungen GmbH, a subsidiary of EnBW Energie Baden-Württemberg AG (“EnBW” or “we”), is evaluating a potential divestment of its 100% shareholding in WTT CampusOne GmbH (“WTT”), a leading provider in the EdTech sector (the “Project” or the “Transaction”).

WTT is a leading provider of digital learning solutions in the EdTech sector headquartered in Ludwigsburg, Germany. The company serves more than 600 customers across the DACH region, primarily in the energy, utilities and municipal sectors. Through its proprietary learning platform, WTT offers more than 700 digital learning modules and benefits from a highly recurring revenue base, strong customer retention and significant scalability. Given its established market position, sector expertise and favourable market dynamics, WTT is well positioned for continued growth.

EnBW is seeking to appoint an experienced M&A advisor with strong access to relevant strategic and financial investor groups to lead and support the transaction process from preparation through closing. EnBW's objective is to maximize shareholder value through the design and execution of an efficient, competitive and pro-

professionally managed sale process. The envisaged transaction structure is expected to be a 100% share sale. Overview

Employees: Approx. 50

[Mio. €]	2022	2023	2024	2025	2026E	2027E	2028E
Revenues	7,0	8,5	10,8	12,8	14,7	16,9	19,5
EBITDA	2,2	3,3	4,8	6,0	7,0	8,7	10,5

Currently envisaged timetable: Kick-Off end September/October

Scope of Work

The Project will be led by EnBW's M&A department with the support of experienced internal experts in tax, legal and accounting. The selected advisor shall provide end-to-end support from preparation through closing, including the following:

- Transaction Structuring and Process Management
 - Delivering a strategic and financial assessment of the target
 - Overall management and coordination of the Transaction process from preparation through closing
 - Development and maintenance of a detailed transaction timetable and project work plan
 - Coordination of all workstreams and experts involved in the Transaction
 - Preparation of a dedicated and attractive equity story (investment case, growth options etc.) together with management and EnBW
 - Supporting management and EnBW in identifying, assessing, and resolving potential carve-out issues, including the definition and implementation of required TSAs, to prepare the company for a successful sale
 - Preparation of all necessary external sales documents (teaser, information memorandum, management presentation, process letter etc.)
 - Organisation and moderation of regular project meetings, steering committee meetings and management workshops
 - Identification of critical path items and Transaction risks, including recommendations for mitigation measures
 - Monitoring of bidder engagement and process dynamics and providing recommendations regarding process strategy
 - Support in the preparation of all internal committee and board documents, including status reports and decision papers
 - Management of the overall signing and closing work plan

- Financial Model
 - Creation and further development of an integrated, full-scope Financial Model (planning and valuation model, incorporating tax and accounting assumptions provided by EnBW's internal experts) based on the company's business case. The model should support sensitivity analyses, scenario planning and valuation assessments, including pro-forma income statements, balance sheets, cash flow forecasts, tax calculations, and other relevant financial metrics and be suitable for presentation to both German and international investors
 - Provide a market view of the internal business case and Financial Model (benchmarks etc.) and challenge core business assumptions
 - Prepare an assumptions book detailing all inputs and assumptions incorporated in the Financial Model (to be updated when necessary and in any case at financial close)
 - Present the Financial Model and provide sufficient support to enable EnBW to use and maintain the model independently. Ensure full transfer of ownership of the Financial Model to EnBW
- Market Approach
 - Identification, evaluation and outreach to suitable strategic and financial investors, including investors outside Germany; if appropriate, perform initial market soundings
 - Development of a comprehensive buyer universe and investor prioritisation strategy
 - Coordinating and moderating discussions and meetings with them
 - Preparation of investor feedback analyses and recommendations
 - Management of NDAs
- Due Diligence
 - Support in the preparation of a data room (including the review of documents and the creation of data room rules, etc.)
 - Coordination and management of the due diligence process, including Q&A management
 - Support in the preparation and implementation of management presentations (including dry runs and management coaching if needed)
- Negotiation and Closing Support
 - Obtain indicative and binding offers from potential bidders
 - Evaluation and comparison of indicative and binding offers
 - Bidder communication and process management

- o Support during SPA and transaction documentation negotiations
- o Assistance with signing and closing activities

We are pleased to invite you to submit a proposal for the mandate of a Transaction Advisor based on the information provided in this letter.

If you are interested, please submit a proposal containing the following information:

- A. Brief description of your experience in transactions in similar sectors and your understanding of the business segment
- B. Presentation of your project manager and responsible core team that you propose for the assignment, their individual time commitment to the Transaction. There is a high expectation that the team will remain unchanged during the Project
- C. Brief description of the current market environment for comparable (inter)national transactions
- D. Your ideas about the equity story and potential investors including your respective network
- E. Preliminary views on valuation ranges and key value drivers and likely investor interest
- F. Your confirmation of the Scope of Work, subject to any observations you have or any work which you consider would be required in addition. You should outline how your firm will approach the Scope of Work described in the mandate, including a work plan and comments on key issues and challenges associated with the mandate
- G. Your ideas for a process set-up and timetable for the entire Transaction process including your thoughts on workshops and investor meetings to be held in person
- H. Your confirmation that you have no conflict of interest
- I. Proposal for a remuneration model, which should be performance-based as far as possible and capped; any retainer fee should be fully creditable against the success fee
- J. Any other information you may consider relevant

Miscellaneous

EnBW will insist that the Transaction Advisor team be led by a senior manager of your company, with a commercially oriented team experienced in the EdTech environment. The lead professional will be expected to play an active role throughout the preparation, execution and completion of the Transaction.

EnBW is not responsible for any costs incurred by a firm in either responding to this RFP, or in participating in oral presentations or meetings with EnBW. EnBW will not reimburse any costs or expenses incurred in connection with this RFP process.

EnBW reserves the right to negotiate modifications to the proposals that it deems acceptable, to reject any or all proposals, to request and consider additional information from any firm, and to waive minor irregularities and technical defects. We reserve the right to seek new proposals when we determine that it is in our best interest to do so.

Nothing in this RFP, nor any communication made by EnBW or its representatives, agents, employees, or advisors, shall constitute an offer of a contract or a binding contract between EnBW and a responding firm. In particular, liability due to unreasonable termination of the contract negotiations pursuant to §§ 280 para. 1, 311 para. 2 BGB is excluded.

All information contained in this RFP shall be treated as strictly confidential.

Delivery of proposal

We would be pleased to obtain your offer by no later than the 17.08.2026, to be addressed electronically to:

EnBW Energie Baden-Württemberg AG
Patrick Saporito
p.saporito@enbw.com

Any potential queries may be directed prior to such delivery of proposals to

EnBW Energie Baden-Württemberg AG
Barbara Kuchenmüller
b.kuchenmueller@enbw.com
0049 151 14014524

After the submission of the proposals, the parties will have the opportunity to present their offer in person. We will contact you to arrange an appointment. The appointment should take place EnBW office Stuttgart.

We appreciate your interest and look forward to receiving your proposal.

With kind regards,
